Introduction

My name is Vedant Agrawal. I belong from Sagar and currently I'm pursuing bachelor of Technology from Vellore Institute of technology. I'm studying computer engineering because I'm passionate about exploring ways technology can provide practical solutions to everyday problems. I'm particularly interested in Front-End Web Development. I'm looking toconnect with engineers and other professionals who are currently working in that field.

I did my schooling from St. Joseph Convent Sr. Sec. School Sagar. My hobbies are reading books, playing football and swimming. My strengths are I am optimistic, trustworthy personand I am always punctual at my work.

Skills

Technical Skills

- > C
- > C++
- > Python
- > HTML
- > CSS

Technical Domain

- Basic Machine learning
- Front End Web Development

Projects

- ➤ Diabetes Prediction in female
- ➤ Barter System
- ➤ Sudoku Solver
- ➤ Interior Designing Website

Diabetes Prediction in female

Aim of the project:

The Aim of this project Was to predict the occurrence of Diabetes in female Given a Certain amount of Data.

Technologies used:

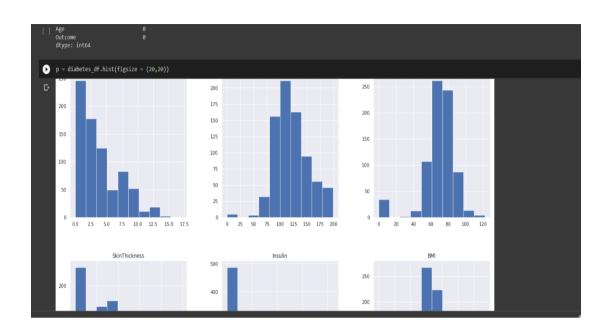

Python, Machine Leaning

Model.

Screenshots:

```
346()
[ ] svc_pred = svc_model.predict(X_test)
    print("Accuracy Score =", format(metrics.accuracy_score(y_test, svc_pred)))
    Accuracy Score = 0.7480314960629921
▶ from sklearn.metrics import classification_report, confusion_matrix
     print(confusion_matrix(y_test, svc_pred))
    print(classification_report(y_test,svc_pred))
[ [145 17]
[ 47 45]]
                              recall f1-score support
                                 0.90
                                 0.49
                                           0.58
       macro avg
                                 0.69
    weighted avg
                                 0.75
                                           0.73
```

Barter System App(Group Project)

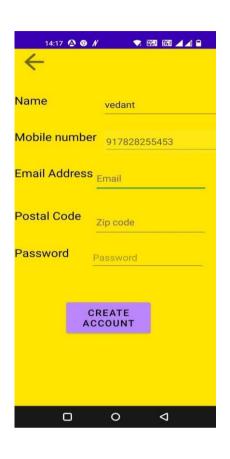

Aim of the projects:

Android Based Platform Where Instead of Money as a method of purchasing goods are used. People can Exchange Items as there is need instead of the regular currency system .

Technologies used:

Java, Xml, Firebase, Figma

Screenshots:

Sudoku Solver App

Aim of the project:

The main aim with Web development Project is to help develop minds of the kids by giving them complex Sudoku solver Problems

Technologies Used:

HTML, CSS, JavaScript, Back-Tracking Algorithm.

Interior Designing Website

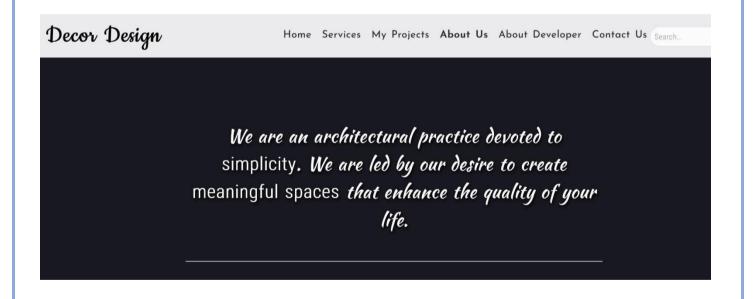

Aim of the project:

It Was my Intership Project. I was given a Task to make a project where we can start a business on selling Interior Designing Ideas.

Technology Used:

HTML,CSS,JavaScript.

Internships

Web Developer Intern - Verzeo

- **Duration: June** 1, 2020 August 31, 2020 (2 months)
- Task: To create a web-based Interior Designing Website.
- **Functionality:** A platform for showing our interior design ideas so that we could get hired.

Certifications

Got Certificate of Excellence in C++ with Data Structures and Algorithm by Coding Blocks

Hacker Rank Problem Solving Certificate

HackerRank

Certificate

This is to certify that

Vedant Agrawal

has successfully cleared the assessment for the skill **Problem Solving (Basic)**

15 Sep, 2020

Date

Harishankaran K

CTO, HackerRank

Extra-Curricular Activities

Member of Google Student Developers Club Was Member of NSS club
